

Real-time information on air quality in Mount Isa

Mount Isa Mines has created two new industry-leading online tools for providing information on air quality in Mount Isa.

AQMI SMARTPHONE APP

Information at your finger tips

- Receive notification when a suburb has an increased likelihood of sulphur dioxide
- See what the air quality in your suburb is like

Download the app for free from the [Apple App Store](#) or [Google Play](#), just search for AQMI.

ONLINE PORTAL

Information in depth

- Hourly air quality results direct from Mount Isa's air quality monitoring network
- Our air quality management practices, procedures and improvement initiatives, as well as breakdown of our regulatory compliance obligations
- Useful links to further information on sulphur dioxide and health

Go to www.mountisamines.com.au, then click on the Air Quality in Mount Isa portal
