

Living with Lead Alliance

Living safely with lead Newsletter

Welcome to 2016

What a great year this is going to be!

The Living with Lead Alliance are pleased to have an extensive program this year, we will launch a second Squeaky Activity Book at the 2016 Mount Isa Show, once again full of great puzzles and activities for children, assisting parents in teaching their children how to be lead smart and teaching good health and hygiene practices.

We will also be developing two new recipe books, full of easy and tasty recipes which contain the vitamins and minerals that will assist you in reducing the possibility of elevated blood lead levels. It is essential that children have healthy meals and snacks throughout the day, and with these recipe books it will be easy for you, they will be packed full of great snack ideas and healthy meals for your family.

The Alliance will also be launching the Backyard Improvement Program competition again this year. We will assist with advice and ideas on how you can reduce bare soil areas in your gardens and children's play areas, reducing the possible risk of children picking up lead dust. We encourage parents to join the competition for a chance to win some fantastic prizes. It's time to make a change and ensure all of our children have a safe and healthy environment to grow and play.
